

County of Marin CalWORKs County Plan 2004 WtW Addendum:

The Marin County Workforce Investment Board is administering the federal formula WtW Grant program.

The Workforce Investment programs and CalWORKs programs are both operated with the Employment and Training Branch of Social Services. The programs share a manager which insures non-duplication.

The funding will be used to serve active CalWORKs recipients. Employment Development Counselors will time study to the grant for time spent developing and implementing the WtW plan for the eligible population. As defined by WtW guidelines the County will serve current CalWORKs participants who are receiving cash assistance and have received aid for at least 30 months or more, or who will become ineligible within 12 months due to the federal 60 month life-time limit on aid.

The CalWORKs case managers will identify the eligible population as a part of the development of the WtW plan, and will track the time spent working with those clients for time study purposes.

Mary Donovan, CalWORKs Coordinator, County of Marin
